info@vimalsales.com

We have a wide range of air distribution products & are presented in this catalogue. The entire range is designed and manufactured to satisfy the aesthetic requirements of architects and interior designers and at the same time taking care of the performance requirements of consulting engineers. A happy blend of the two helps us to meet the challenge of maintaining our reputation as one of the leading manufacturer of quality products for the HVAC air distribution market. Crafted from aluminium, all air outlets are corrosion resistant and impart a sleek & contemporary look.

We are forefront of research and development Turning new ideas and innovation into new products. Presented in this catalogue is our range of products. We shall gladly provide you with all such information personally on request on project to project basis.

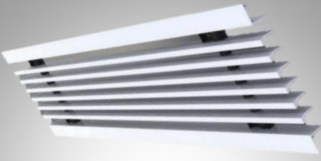

We believe in quality product, since a good quality products and hence we use best quality raw materials and inspection along with quality check at our side in all departments. Since this is a customized product and hence each project / requirement is special for us.
